Profile Summary

Motivated Final-year B.Tech student with strong fundamentals in **Python, Django, SQL, and full-stack development**. Built multiple real-world projects using APIs and AI tools. Fast learner with good problem-solving skills, ready to contribute as a fresher software developer

Education

◦ Chandigarh Group of Colleges, Jhanjeri	2022-2026
B.Tech in Artificial Intelligence & Data Science	7.9 CGPA
◦ Madhav Public School, Gorakhpur	2021-2022
Central Board of Secondary Education(12 th)	70%
◦ J P Education Academy, Gorakhpur	2019-2020
Central Board of Secondary Education(10 th)	88%

Internship & Training

Software Development Intern	May,2025 – Aug,2025
Bharti Aritel Ltd., Gurugram	
◦ Gained hands-on exposure to LLMs and core data science workflows like preprocessing, analysis, and model understanding.	
◦ Built a strong foundation in applying AI techniques to solve real-world business problems.	
Data Science Using Python	June 10, 2023 – July 15, 2023
RemarkSkill Pvt. Ltd. in association with IIT Hyderabad	
◦ Learned Python with core data science libraries like NumPy, Pandas, and Matplotlib.	
◦ Gained hands-on experience in data preprocessing, ML basics, and small DS projects.	

Projects

CodeXray – Full Stack GenAI Code Analyzer

- Built a full-stack web app to analyze GitHub repos, detect bugs, and summarize code using local LLMs.
- Integrated a chatbot for real-time explanations, debugging, and code-related queries.
- Enabled file-level analysis, branch selection, and multi-language support with user-specific history.
- Tools: Python, Django, Ollama (Phi), LangChain, Together API

InsightGenie – AI-Powered Data Analysis Dashboard

- Developed a web application with user authentication, CSV upload, dynamic chart generation, and natural language data querying using a large language model (LLM).
- Tools: Django, Plotly, Pandas, Bootstrap, Together.ai, HTML, CSS, JavaScript

Tech-Stack

Language:	Python R HTML JavaScript
Databases:	MySQL MongoDB
Tools:	Git PowerBI
Backend:	Flask Django Rest API
OS:	Windows Mac OS Linux

Soft Skills

- Conveying Ideas
- Learning Ability
- Cooperative Mindset
- Reliability
- Organizational Skills

Achievements

- **Geeks for Geeks Community Member** 2024-2025
- Actively involved in discussions and collaborative projects related to computer science and technology.
- **Project Leadership and Team Development** 2023-2024
- Lead cross-functional teams in executing projects by developing plans, assigning tasks, facilitating communication, and implementing best practices

Certifications

- **Curvett – LLM GenAI Certification**, June'2025
- **Robotics and Automation** – Certified, March'2023
- **Website Development** – Chandigarh Group of Colleges, Jhanjeri
- **MongoDB** – Certification of Completion
- **Machine Learning Bootcamp** – Participant
- **Data Science Using Python** – Infosys Springboard, Certified
